Subject: SUPPORT LETTER TO WILL SOLUTIONS INC.

Dear Mr. Clermont,

We would like to confirm our support to your Sustainable Community Solution allowing Quebec companies, mostly SME's, to monetize their GHG reduction efforts. Your Solution directly contributes to the active integration of sustainable development in the Quebec and worldwide economies.

We underline the relevance and originality of your business model allowing Quebec's society, as a whole, and elsewhere in the world to actively participate while being rewarded for each action contributing to climate change challenges.

We would like to congratulate you for your recent nomination to Les Prix Novae de l'Entreprise citoyenne 2014 in the Innovation category. This well deserved recognition confirms your direct contribution to sustainable development and gives meaning to corporate social responsibility. It is with great pride that we will collaborate with your organisation in Quebec and elsewhere in the world in the deployment of your Solution.

To know more about our program, we invite you to consult our web site at www.ecoresponsible.net. In addition, we will be pleased to meet you for a complete presentation in order to convince you of the merit of this structuring initiative.

TAKE OUR Ecoresponsibilities

... With conviction and action
