Press Release

NIHT, Inc. and WILL Solutions Inc. team up to launch joint offer in the field of Voluntary Carbon market.

(Montreal, Wednesday, March 17, 2021) – WILL Solutions Inc. is proud to announce its most recent partnership with NIHT, Inc. allowing for new offers and joint proposals to respond to the ambition of the Voluntary Carbon markets.

In collaboration with NIHT, Inc., WILL intends to implement a new carbon unit to be promoted on the voluntary carbon markets and to be sold initially across Canada.

This combined unit is an equivalent of one Verified Carbon Units (VCU) and will be composed by one half of a VCU registered on the VERRA registry under project ID 929 (equates to half a ton of GHG reduction); and by one half of a VCU registered on the VERRA registry under project 2293 (equates to half a ton of GHG sequestration).

Synergizing Carbon sequestration from Papua New Guinea and North American GHG reductions, this new carbon unit symbolizes the endless possibilities and opportunities offered by and to first actors and early adopters of eco-responsible practices.

About NIHT, Inc.

NIHT, Inc. is a private corporation from Nevada, United States. NIHT, Inc. transforms lives and the environment through its Agriculture Forestry and Other Land Use (AFOLU) Project in the southern third of the island province of New Ireland in the nation of Papua New Guinea. NIHT, Inc. conserves endangered tropical rainforests and generates unprecedented growth and social transformation. Together with communities in Papua New Guinea, over the life of their Project, NIHT, Inc. will conserve millions of acres and generate massive GHG reductions yielding more than 50 million VCUs. NIHT, Inc. will redistribute 50% of the net revenues to individual local shareholders, as much as 47,000 of them.

About WILL

WILL Solutions Inc. (WILL) is a B Corp.-certified Canadian private company based in Quebec, Canada. The company is active in the voluntary carbon market sector with the Sustainable Community project. WILL has a social philosophy based on sharing. It rests on two major pillars: democratizing access to carbon credits through the pooling of local GHG reduction projects by SMEs and NPOs and returning as much money as possible to these partners following the sale of carbon credits by WILL. The company has been carbon neutral since 2007 and is committed to returning 40% of its revenues to GHG reduction projects and 10% of its net profit to community-based projects and initiatives that support sustainable development.

Both WILL and NIHT, Inc. are authorized to reference and introduce the VCUs registered under VERRA.
