

CLAUDIA LESAGE

GHG QUANTIFICATION DIRECTOR

AT WILL SOLUTIONS INC.

Who is Claudia Lesage?

Claudia Lesage is an **expert in the environment and climate change**.

Passionate about **concrete solutions designed to propel the climate transition**, she has been **responsible** for supervising and coaching the **greenhouse gas (GHG) quantification team** at Will Solutions since 2018. In this role, she **manages Will's agglomerated Sustainable Community project**, from conducting **audits** to **validating** and **verifying** the various reports produced as part of GHG quantification projects.

Claudia holds a Master's degree in **Climate Change** from the University of Waterloo, as well as a first B.A. in **Environmental Studies and Geography** and a second in Fine Arts from Bishop's University.

Interview Topics

- Measurement of GHG emissions and reductions
- Audit and qualification of GHG reduction projects
- Climate change (mitigation and consequences)

About Will Solutions

WILL Solutions Inc (WILL) is a private Canadian company, **BCorp. certified** and **Solar Impulse labeled**. The company is active in the **Voluntary Carbon Markets (VCM)** sector with the **Sustainable Community project**. WILL's social philosophy is based on sharing. It is based on two major axes: democratizing access to **carbon credits** by **pooling local GHG reduction projects** carried out by SMEs, NPOs and communities, and **returning as much money as possible to these partners** following the sale of carbon credits by WILL. WILL has been **carbon neutral since 2007**, and **returns 10% of its net profit** to projects supporting sustainable development.
