

Sustainable Community Project

By Will Solutions, Experts in the Voluntary Carbon Market Since 2007.

What's this?

The first carbon project in Canada to be verified by Verra, the Sustainable Community facilitates the green transition of SMEs by providing them with tools adapted to their business reality. Thanks to a cost-sharing model, it makes the voluntary carbon market accessible with no up-front costs, and finances local decarbonization.

Base data

Methodology: VM0018

ID: VCS-929 and VCS 3004

Certification: VCS from Verra

Territories: Quebec and Ontario, CA

Developer: Will Solutions Inc.

Project status: registered

Estimated annual reductions: +3M tonnes CO2e
